

# A New Home For Your New Kitten.

**FOOD**  
I am not too keen on having my food close to my litter tray, after all I am not a dirty animal! Your kitten file outlines what you need to feed your kitten, the food is available from 'Pets At Home'. Your Kitten Pack will have a 400g bag of the Dry Food and a sachet of the wet food, so no need for you to rush out to buy Some today!

**HOW EXCITED AM I?**  
I am so excited about going to my new home, but I am also a bit apprehensive, so here are a few neat instructions for you to make my move that little bit more comfortable. Firstly, I need to know where my litter tray is situated, once I know that, I am sure I won't make a mess.

**LITTER**  
So, I know where my litter tray is and you have put an inch of litter that was supplied to you in the Kitten Pack. This litter is available from Asda and is environmentally friendly. If you scoop out the waste on a daily basis, it will last a few days.

**HIDING AWAY**  
Now, in the first few days I will require a nice quiet environment to settle into. Sometimes if it gets too much for me I will want to hide away, but if you find me trying to hide away all of the time, don't be alarmed, but I hope you take the time to entice me to come out and mingle. I will eventually get used to you and come out more and more often.

**SCRATCHPOST**  
I use a scratch-post for a number of reasons, one is to relieve stress, another is for exercise, and also to keep my claws nicely manicured so that I can climb and hunt, I know how to use a scratch-post, please get me one so that I don't forget and use your furniture!

**WATER**  
Please, Please, Please, make sure I have plenty of FRESH water available at all times, I like water, it's good for me, my kidneys and my general health.

**TOYS**  
I love toys, not only do they keep me entertained, toys also exercise me and help me gain coordination skills. They are also a good tool for adult-cat interaction. I need a fresh supply of new toys every couple of weeks. Your kitten pack has some toys included to get us started.

**IMPORTANT**  
Prior to making any changes to my litter or food, please let me completely settle into my new home. I can't cope with too many changes at once. If and when you do decide to change my food or litter, please do it gradually. That way you will keep me happy. The same rule applies to introducing me to your children and other pets. Please take it gradually and after a settling-in period. Please do not leave me alone with your other pets, especially dogs.
